Installation Instruction

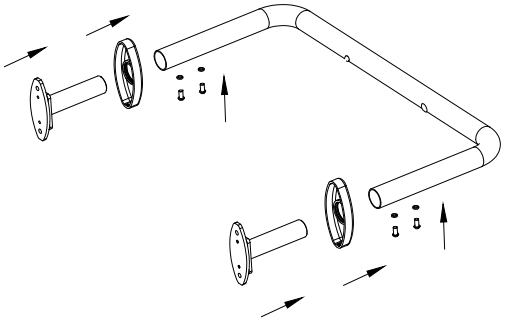

1.Ensure wall is suitable for installing the backrest before you begin installation.
Place wall fixing plate on wall at correct height over centre of stud and mark hole positions on wall refer left picture.
Tip: Backrest height is 690-710mm above the ground.

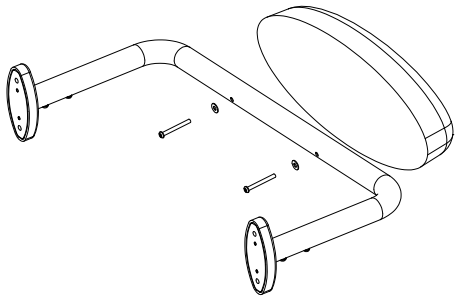

2.Drill pilot holes into wall stud approximately 60mm deep to suit mounting screws (and wall plugs if required).
Tip:3mm hole for screws into timber or 8mm hole for wall plugs.

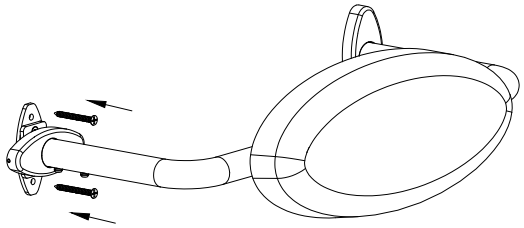

3.Apply small amount of silicon to wall fixing plate and wall in and around the screw holes.

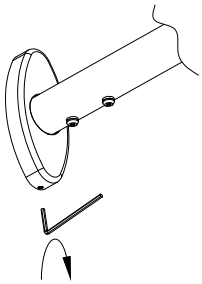

4.Slide cover plate onto rail and then insert wall fixing plate into rail and tighten it by washer and grub screw.

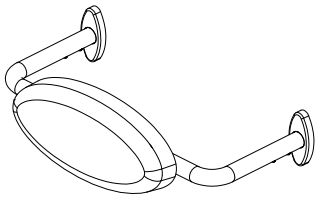

5 Install backrest onto rail by washer and screw.

6.Screw wall fixing plate and rails onto wall.

7.Slide cover plates back over wall fixing plate and tighten it by grub screw and allen key.

8. Finished.
